

KOMOLAFE FARUQ ABIODUN

SOFTWARE DEVELOPER

SUMMARY

Professional Full-Stack Developer & Production Designer

As a professional full-stack developer and production designer, I possess a deep understanding of a wide range of technologies, including Python, JavaScript, HTML, CSS, SQL, API development, prompt engineering, UI/UX design, Redux, TypeScript, DRF and the Next.js, React Native, and Django frameworks. With my exceptional problem-solving abilities and experience in leading software development projects from conception to completion, I have consistently delivered exceptional results for my clients.

My technical skills also extend to Machine Learning (ML) and Data Structures and Algorithms (DSA), allowing me to develop sophisticated applications and data-driven solutions. By staying up-to-date with the latest technologies and best practices in software development, I am committed to delivering innovative solutions and making meaningful contributions to the industry.

I am eager to take on new challenges and continue to develop my skills as a full-stack developer and production designer. I am confident that my expertise and passion for technology make me a valuable asset to any team.

EXPERIENCE

Develop and maintain highly interactive web applications that deliver exceptional user experiences, resulting in increased sales and improved customer satisfaction.

Utilize advanced techniques in UI/UX design to create visually appealing websites, including font selection, color schemes, shapes, and reputation management.

Create production-ready designs for web and mobile applications using Figma, Photoshop, and Adobe Illustrator.

Employ 2D animation software, such as After Effects and Lottie, to create engaging animations for website engagement and to enhance user experience.

Analyze past user data to identify areas for improvement and implement new functionalities that enhance the user experience and increase website performance.

Employ AI and machine learning algorithms, such as prompt engineering, to provide data-driven insights that inform SEO and advertising strategies.

Develop and deploy web applications using cutting-edge technologies such as Next.js, React Native, Django, PostgreSQL, Firebase, AWS, Google Analytics, and Google Cloud.

Collaborate with stakeholders to ensure optimal performance of web applications, and employ tools like Chat GPT and Stable Diffusions to improve results.

With 4 years of experience as a Full-Stack Developer and Production Designer, I have developed a deep understanding of user behavior and psychology, enabling me to create websites that engage users emotionally and provide exceptional experiences. I am committed to staying up-to-date with the latest trends and best practices in web development, design, and animation. I am passionate about delivering results that exceed client expectations and drive business growth.

SKILLS

Full-stack web development
UI/UX design
2D animation
Production design using Figma, Photoshop, and Adobe Illustrator
Front-end development with Next.js, React Native, JavaScript, and TypeScript
Back-end development with Django, PostgreSQL, and Firebase
AI and machine learning algorithms, including prompt engineering
SEO and advertising strategies
Deployment and management of web applications on AWS and Google Cloud
Data analysis using Google Analytics and other tools

EDUCATION

HND in Mechanical Engineering
Yaba College of Technology Lagos, Nigeria,
[Graduation Date: 2019]
